Leaders in forensic investigation

When Things Go Wrong at Sea...

Providing forensic engineering, investigation and expert witness services for incidents relating to all aspects of the shipping and marine industries.

What we do

Our team of forensic scientists and engineers can advise, investigate and assist at any stage of a marine incident, as well as provide ongoing support and guidance for the future.

We support our clients throughout the investigation process, including travelling at short notice.

PRE-FAILURE RISK MANAGEMENT

Guidance on design, installation, and regulations to ensure safety, compliance, and risk reduction.

ROOT CAUSE ANALYSIS

Scientific investigation into all aspects of an incident to determine what happened, why and in what sequence.

EXPERT WITNESS SERVICES

Independent and impartial technical advice, including quantum & delay services to assist Counsel during all aspects of litigation.

POST-FAILURE ADVICE

Consultancy advice to reduce, mitigate and prevent risks associated with similar events happening in the future.

MAJOR & COMPLEX LOSS

Global resources and multidisciplinary teams, armed with the knowledge, equipment and facilities to manage and investigate major and complex incidents.

We Investigate...

The following types of incidents (live or desktop)

on behalf of P&I, law firms, brokers, loss adjusters and private clients:
